

## NORTHERN TRIBUNE.

Entered at the Postoffice at Cheboygan Mich., as Second Class Matter.

SATURDAY, JULY 21, 1883.

## CHEBOYGAN MATTERS.

BERT H. BEGOLE left yesterday morning for Flint to visit friends.

Robinson & Thompson have commenced work on the bell and hose tower at the town hall.

Carleton Brothers opened a kiln of brick yesterday and bricklaying has commenced again.

All Cheboygan Farmers are busy "making hay while the sun shines" and the crop is immense.

Services at the Independent church at 8 o'clock to-morrow evening. Good music. All made welcome.

A picnic party visited Mullet Lake Wednesday on the Mary and enjoyed a pleasant visit and a good time.

A lively run away from near John F. McDonald's grocery, Monday, good time was made but no record obtained.

Remember the Concert at the Opera House next Friday evening. You cannot afford to miss so delightful an occasion.

Wednesday Mrs. C. W. Farr, manager of the telephone exchange, responded to 360 calls between the hours of 7 A. M. and 9 P. M.

Duncan City was connected by wire Tuesday with Cheboygan, and Wednesday morning conversation between the two places was enjoyed.

Capt. Matheson, of the tug Messenger, reports a tidal wave of three feet at Cockburn island Thursday, which came near doing considerable damage.

A gentleman who claimed to have traveled for pleasure all over the country, told Capt. Keeney that for enjoyableness a trip over the island route exceeded anything in his experience.

The tug Messenger Wednesday brought 31 large cars full of fresh fish 19 tons in all. Nine of the cars were from Cockburn island and four from Mr. Tolson's Hammond bay fishery.

Owen Fawcett has cancelled his Cheboygan engagement for the present. As he goes to California in September, it is doubtful if our citizens will have the pleasure of another visit from him and his excellent company this season.

O. M. Clement dispenses the "joyful weird" to all his customers and any one troubled with a "paraphernalia of gloom" will be cured by wearing his elegant boots and shoes. Look at the advertisement of a man who means business always.

The rapid increase by births of the population of Cheboygan cannot be better shown than by the number of babes christened by Father DeSmet every Sunday. On Sunday July 1st, he baptized 13. 8th, 10, and last Sunday 9. Making 32 for the first half of the month.

The excursion on the Flora yesterday was not so largely attended as the object deserved to say nothing of the pleasures of the ride and visit to the charming isle. A great many, however, got left, getting down to late to get the boat, although Capt. Jones waited 15 or 20 minutes after time.

We need only refer the readers of the Tribune to the programme, published elsewhere, of the concert to be given at the Opera House Friday evening of next week for them to see what a rare musical treat is in store for them. The programme is a most excellent one and the ability, of those to take part is such as to insure all that it will be well rendered.

The other evening while night-watch Lynam was trying to quiet a party on the Duncan road, one of them undertook to escape but was overtaken by officer Lynam and a blow from the latter's club felled his man, making a job for Dr. DuPaul, who sewed up a scalp wound. You want to look out for Lynam, when he goes for a man he means business every time.

The Eldon Star Combination have not received the patronage they were deserving of this week. The company is well balanced, and Miss Johns and Mr. McNair have won favor from those who have attended, and have been ably supported by the rest of the cast, Miss Haynes and the accomplished little Miss Florence being especially deserving of mention.

Wednesday, while they were engaged loading posts on the schooner Acontias, from the bank of the river, the oldest boy of Capt. Chas. Kitchen was on deck looking on. He started to get off of the schooner, and just as he was getting on the runway from the schooner to the bank, one of the laborers threw down a post, and it hit the boy on the head, fracturing the skull. Dr. T. A. Perrin was called and under his treatment the lad is doing well.

Cheboygan hotel men are all happy. Business booming with them.

McDonald & Veeder have their saloon nicely carpeted, and Joe is still at the wheel.

At the Spencer House we noticed from a page, to a page and a half of the register is filled with new arrivals every day.

The wild cry of Democracy now is "out with the rascals", meaning of course, see to it that every man-jack of Democracy is at the polls.

Eugene Bellant is the latest candidate for strawberry honors, leaving at McDonald & Veeder's saloon some magnificent specimens of the luscious fruit.

We understand Miss Hamilton has been offered much better wages than offered by the school board and declines accepting a position in the graded school. This we much regret as she proved a very efficient teacher.

Frank Sammons, son of Sylvester Sammons, while wrestling Thursday evening, was thrown in the scuffle, and dislocated his shoulder, fracturing the collar-bone. Dr. Perrin has him in charge, and hopes to bring him out as good as new.

E. Nelson is going to move the residence on the lot corner of Main and Division streets, recently occupied by G. P. Langdon, to one of his lots on Huron street between Pine and Nelson streets and fix it up in good shape. This is to make room for the new bank building.

It is rumored that there is a village ordinance providing for the working out of unpaid fines, for convictions under village ordinances, upon the streets. The matter is being looked up and if there is such an ordinance ye impecunious prisoners will be set to work. If there is no such ordinance it is likely one will be adopted speedily.

Monday evening, August the 6th, at the Opera House, "The original Nashville Students" appear for the benefit of the M. E. Church. There are nine in the company and their reputation as singers is of the best, the press wherever they have appeared giving them the greatest praise. We feel confident our citizens will enjoy a rare treat and at the same time have the pleasure of contributing to the benefit of a very deserving cause.

Dignity of character and sweetness of soul are united in a true man, one who asks no favor, fears no frown, who merits and receives as a just reward the respect of all respectable persons, the hatred of all malevolent, ignoble and lowering creatures, and the consciousness of thinking, speaking and acting with all who advance and love true progress. To such an one life is charming, all things work together for good, and his whole being is freighted with treasures which come as it were unbidden, by the thousand, from heaven and earth to make life worth living and loving.

The subject of a sidewalk to the fair grounds was talked over, informally at the agricultural society last week and it was suggested that the Township of Inverness, Beaupre and Benton unite and put one down. but Supervisor Barclay, when spoken to in regard to it, suggested that as it was a matter in which the whole county was interested that application be made to the board of Supervisors to build it. There being no meeting of the board to be held in the near future, the clerk was requested to write each member of the board and ascertain their views. We understand four members have responded favorably and it is thought the majority of them will, if not all. A sidewalk would do much to insure the success of the fair, as a great many object to attending on account of the expense of getting to and from the grounds, and who would gladly walk out and back if there was a sidewalk the whole distance.

The revenues of right yield a handsome income of protection and comfort, that are greatly enhanced by the raging of the heathen, who, in his squirming, suffering gyrations, fills the air with spotted ebullitions of impotent vulgarity, rudeness and venom. This is "delight-someness" indeed, that outvies the higher degrees of a "joyful weird," for science marks, and history establishes these keen-edged pangs, of out-crying distress, as premonitory signs of a struggle to escape the lower forms of animal life, that feed and fatten upon fatal filth of vulgar abuse, into the pure regions of respect for every man, woman and child, a region where intellect can forge weapons of warfare of superior brightness and metal, and need not rely on some helpful friend whose sentences can only be understood word at a time, by an unending process of repetition, so complimentary to the author, and so saddening to the repeater as to clothe the grimaced and begrimed visage with a "paraphernalia of gloom." Rejoice and be exceedingly glad, when any creature is benefited, in any way, for great is the reward of helping others.

## LIVE TALK ON LIVE SUBJECTS.

No "paraphernalia of gloom" to those who patronize Clement.
